

PC₃[™] Organic is an innovative bio-catalytic water additive that works through the utilization of highly reactive nano-bubbles formed by saponins and highly refined yeast extracts.

PC₃[™] Organic offers numerous benefits in optimizing water and soil management strategies for growers.

PC₃[™] Organic will help mitigate fouling problems within irrigation lines due to the action of the nano-bubbles formed through water turbulence in sand filters, irrigation lines and emitters.

PC₃[™] Organic contains ingredients that stimulate healthier microbiological conditions (microbiome) within the soil column through the action of the enhanced oxygen transfer mechanisms of nano-bubbles, combined with the essential nutrients contained in the yeast extracts.

PC₃[™] Organic contributes benefits in mitigating salinity accumulations within the soil column through reducing surface tension and improved solubility of salts.

Product suitable for use in Organic Farming in accordance with (as appropriate: *Regulations (EC) No 834/2007 and 889/2008 and/or the NOP Regulation*).

Control by ECOCERT F-32600

SAFETY DATA SHEET

A **PC₃[™] Organic** Safety Data Sheet is available through the BOC website at www.bio-organic.com. Please read the Safety Data Sheet carefully and follow all directions when using or handling this product.

THE POWER IN NATURE[®]

PC₃[™] ORGANIC

Bio-Catalytic Water Treatment

Preparation of **PC₃[™] Organic**: Dissolve and gently mix contents into the appropriately sized container of water.

- 5 ounces (142 grams) of dry mix makes 1 gallon (3.785 liters) ready to use liquid.
- 25 ounces (709 grams) of dry mix makes 5 gallons (18.93 liters) ready to use liquid.
- 275 ounces (7,797 grams) of dry mix makes 55 gallons (208 liters) ready to use liquid.
- 1,375 ounces (38,986 grams), of dry mix makes 275 gallons (1,040 liters) of ready to use liquid.

PC₃[™] ORGANIC DOSAGE RECOMMENDATIONS:

Fields & Orchards: Add 3.5 oz. (104 ml) into 25 gallons (95 liters) of water. Apply once a month.

Irrigation Systems: Add 32 oz. (1 liter) per acre for initial clean-out of system. Leave overnight and flush the following day. Thereafter, inject 2 - 4 ppm into irrigation lines on continual, or periodic basis.

Center Pivot Systems: Apply 64 oz. (2 liters), per hectare (2.5 acre), four (4) times a season.

PRODUCT CONTENTS

Highly concentrated nutrient solution of plant-based surfactants and yeast extracts.

PC₃[™] Organic is not a fertilizer.

CAUTION

Keep out of the reach of children. If product from this container splashes in eyes, rinse well with water.
